COMPANY PROFILE

ENGINEERING EXCELLENCE.
DELIVERING QUALITY.

RMH Infra Projects Pvt. Ltd. is a leading construction and infrastructure company delivering end-to-end solutions for industrial, commercial and infrastructure projects.

With a strong foundation in engineering, technology and skilled execution, we deliver projects that are safe, durable, sustainable and built to create long-term value.

WHAT WE DELIVER

01

PLAN

Understanding project requirements and execution scope with detailed planning and engineering.

02

BUILD

Coordinated civil, structural and infrastructure execution with skilled workforce and advanced equipment.

03

INTEGRATE

Connecting utilities, pipelines, structures and supporting systems for seamless project integration.

04

DELIVER

Quality-focused and schedule-driven project completion with safe handover.

EXPERIENCED TEAM

Skilled engineers and professionals committed to excellence

SAFETY FIRST

Strict safety protocols ensuring zero harm workplaces

QUALITY ASSURED

International standards and rigorous quality control

ON-TIME DELIVERY

Efficient planning and execution ensuring timely completion

CLIENT FOCUSED

Transparent communication and long-term client relationships

OUR CORE

CAPABILITIES

COMPLETE INFRASTRUCTURE & INDUSTRIAL
CONSTRUCTION SOLUTIONS UNDER ONE ROOF

We offer a wide range of civil, infrastructure and industrial construction services with a focus on quality, safety, timely delivery and customer satisfaction.

CIVIL CONSTRUCTION

Foundation, RCC structures, concrete works, site development and complete civil construction.

INDUSTRIAL CONSTRUCTION

Factory construction, plant construction, industrial buildings and structures with complete execution support.

INFRASTRUCTURE DEVELOPMENT

Infrastructure planning, development and execution including roads, drains, utilities and site infrastructure.

INDUSTRIAL SHED & WAREHOUSE CONSTRUCTION

Industrial sheds, warehouses and large-span structures built for durability, safety and operational efficiency.

ROAD CONSTRUCTION & RCC DRAIN

Construction of industrial roads, internal roads, RCC drains and heavy-duty pavements.

PEB STRUCTURE & STRUCTURAL STEEL

Pre-engineered buildings, structural steel fabrication and erection for industrial and commercial projects.

WATER PIPELINE & IRRIGATION WORKS

HDPE pipeline, water supply pipeline, irrigation pipeline and utility pipeline installation with testing.

INDUSTRIAL PIPELINES & FIRE FIGHTING

Industrial utility pipelines, fire fighting pipeline systems and installation as per industry standards.

WATER TREATMENT PLANT CONSTRUCTION

Design, construction and execution of water treatment plants and associated infrastructure.

INDUSTRIAL INSULATION & DUCTING

Industrial insulation services, ducting systems and allied support for industrial installations.

EPC CONTRACTOR & TURNKEY PROJECTS

End-to-end engineering, procurement, construction, installation, testing and commissioning.

ONE PARTNER. COMPLETE SOLUTION.

CIVIL &

INFRASTRUCTURE

CONSTRUCTION

STRONG FOUNDATIONS. RELIABLE STRUCTURES. LASTING VALUE.

We deliver high-quality civil and infrastructure construction solutions that form the backbone of industrial, commercial and infrastructure projects. From site development to RCC structures, we ensure durability, safety and precision at every stage.

OUR CIVIL CONSTRUCTION SERVICES

INDUSTRIAL FOUNDATION WORK

Heavy-duty foundations for machines, structures and industrial equipment.

RCC CONSTRUCTION

RCC structures, columns, beams, slabs, walls and specialized works.

CONCRETE STRUCTURES

High-quality concrete construction with strength and durability.

EQUIPMENT FOUNDATIONS

Precision foundations for heavy equipment and machinery.

BUILDING FOUNDATIONS

Strong and stable foundations to support all types of building structures.

SITE DEVELOPMENT

Site grading, leveling, backfilling and complete site preparation.

INTERNAL ROADS & PAVEMENTS

Concrete and bituminous roads, internal circulation and pavements.

UTILITY INFRASTRUCTURE

Underground utilities and structural works for water, sewerage and other systems.

OUR APPROACH

SITE ASSESSMENT & PLANNING

Understanding site condition and project requirements in detail.

DESIGN & ENGINEERING

Optimized design and engineering for safety, strength and efficiency.

EXECUTION & CONSTRUCTION

Skilled workforce, quality materials and advanced equipment for execution.

QUALITY INSPECTION

Multi-level quality checks to ensure standards and compliance.

PROJECT HANDOVER

Timely completion and handover with complete documentation.

BUILT ON QUALITY. DELIVERED WITH COMMITMENT.

FOUNDATION WORK

RCC STRUCTURES

SITE DEVELOPMENT

CONCRETE WORK

ROAD & DRAINAGE INFRASTRUCTURE

STRONGER INFRASTRUCTURE. BETTER TOMORROW.

We design and construct high-quality roads and drainage systems that ensure smooth connectivity, proper water management and long-term durability for industrial, commercial and infrastructure projects.

ROAD CONSTRUCTION

- Industrial Roads
- Internal Plant Roads
- Heavy Vehicle Roads
- Access Roads
- Concrete Roads
- Bituminous Roads
- Paved Infrastructure
- Road Strengthening & Upgradation

BEFORE

CONSTRUCTION

COMPLETED

QUALITY ROADS. SMOOTH CONNECTIVITY. STRONGER PERFORMANCE.

RCC DRAIN

- RCC Drain Construction
- Industrial Drainage
- Utility Drainage
- Surface Drainage
- Trapezoidal Drains
- U-Drains
- Drain Covers & Gratings
- High Load Bearing Drains

DURABLE CONSTRUCTION. EFFICIENT DRAINAGE.

STORM WATER DRAINAGE

- Surface Water Management
- Rainwater Drainage Systems
- Storm Water Drains
- Open Channel Drains
- Box Drains
- Catch Pits & Manholes
- Drainage Network Development
- Overflow & Relief Structures

SMART DRAINAGE. FLOOD CONTROL. ENVIRONMENT PROTECTION.

OUR STRENGTH

QUALITY MATERIALS

We use tested and approved materials for maximum durability and performance.

EXPERIENCED TEAM

Skilled engineers and workers ensuring safe and quality execution at every stage.

ADVANCED EQUIPMENT

Modern machinery for faster execution with precision and efficiency.

SAFETY FIRST

Strict safety standards and protocols maintained across all sites.

ON-TIME DELIVERY

Efficient planning and execution to ensure timely project completion.

CLIENT SATISFACTION

Transparent communication and commitment to long-term client relationships.

WATER PIPELINE &

IRRIGATION SOLUTIONS

DELIVERING FLOW. DELIVERING VALUE.

We provide end-to-end water pipeline and irrigation solutions for industrial, commercial, agricultural and infrastructure projects. Our team ensures quality installation, rigorous testing and reliable performance for water supply and distribution systems.

OUR PIPELINE CAPABILITIES

WATER SUPPLY PIPELINE

Design and installation of water supply pipelines for municipal and industrial use.

HDPE PIPELINE

Specialized in HDPE pipeline installation for long-lasting, leak-proof performance.

IRRIGATION PIPELINE

Efficient irrigation pipeline solutions to support agricultural and landscape needs.

INDUSTRIAL UTILITY PIPELINE

Installation of pipelines for industrial utilities, process water and services.

PIPELINE TRENCHING & INSTALLATION

Precise trenching, bedding and installation as per industry standards.

PIPELINE TESTING & COMMISSIONING

Hydro testing, pressure testing and commissioning for safe and reliable operation.

APPLICATIONS

WATER SUPPLY

IRRIGATION

INDUSTRIAL UTILITIES

INFRASTRUCTURE DEVELOPMENT

PROCESS WATER

PIPE MATERIAL WE WORK WITH

HDPE PIPES

MS / GI PIPES

OUR COMMITMENT

QUALITY MATERIALS

We use high-quality materials for maximum durability.

EXPERT TEAM

Skilled manpower and experienced engineers for precise execution.

SAFE & RELIABLE EXECUTION

Safety-first approach with strict adherence to standards.

TIMELY DELIVERY

On-time project completion with efficient planning and execution.

OUR PIPELINE EXECUTION PROCESS

01

SURVEY & ALIGNMENT

Detailed survey and alignment as per project requirements.

02

TRENCHING

Precise trenching with proper depth and safety measures.

03

PIPE INSTALLATION

Installation with proper jointing, bedding and backfilling.

04

TESTING

Hydro testing and pressure testing to ensure leak-proof performance.

05

COMMISSIONING

Final inspection, flushing and commissioning for smooth operation.

BUILDING INFRASTRUCTURE.

CREATING LASTING VALUE.

COMPLETE

INDUSTRIAL

CONSTRUCTION

BUILT STRONG. BUILT TO PERFORM.

We deliver end-to-end industrial construction solutions including factory construction, plant construction, industrial foundations, sheds, warehouses and supporting infrastructure with a focus on quality, safety and timely delivery.

OUR INDUSTRIAL CONSTRUCTION SERVICES

FACTORY CONSTRUCTION

Complete construction solutions for factories and manufacturing facilities.

PLANT CONSTRUCTION

Infrastructure and construction works supporting industrial plant development.

INDUSTRIAL FOUNDATION

Heavy-duty foundation works for equipment, structures and industrial applications.

INDUSTRIAL SHED CONSTRUCTION

Design and construction of industrial sheds for various processes and operations.

WAREHOUSE CONSTRUCTION

Durable and functional warehouses for storage, logistics and distribution requirements.

KEY HIGHLIGHTS

High-quality construction with superior workmanship

Modern equipment & advanced technology

Skilled workforce and experienced engineers

Strict quality control and safety compliance

Timely execution and on-time project delivery

Transparent communication and customer satisfaction

PROJECT GALLERY

DURABLE STRUCTURES

Built for strength and long-term performance

COST EFFECTIVE

Optimized construction solutions for better value

FASTER EXECUTION

Efficient planning and coordination for timely completion

QUALITY ASSURED

International standards and rigorous quality control

SAFETY FIRST

Strict safety practices ensuring zero compromise

END-TO-END SOLUTIONS

From concept to commissioning, we handle it all

INDUSTRIAL BUILDINGS,

SHEDS & WAREHOUSES

STRONGER SPACES. SMARTER SOLUTIONS.

We design and construct high-performance industrial buildings, sheds and warehouses tailored to your operational needs. Our structures are built for durability, efficiency and long-term performance.

FACTORY CONSTRUCTION

- Complete factory construction
- Heavy-duty structures
- Equipment foundations
- Utilities & infrastructure

BUILT FOR PRODUCTION.

BUILT TO LAST.

INDUSTRIAL SHED CONSTRUCTION

- Pre-engineered & conventional sheds
- Large span, clear space
- High strength & durability
- Custom design & fabrication

LARGE SPAN. STRONG DESIGN.

MAXIMUM USABILITY.

WAREHOUSE CONSTRUCTION

- Storage & logistics facilities
- High efficiency layout
- Ventilation & lighting solutions
- Safe & secure structures

SMART SPACES FOR STORAGE & GROWTH.

INDUSTRIAL BUILDING CONSTRUCTION

- Administrative buildings
- Multi-storey industrial buildings
- Staff facilities & utilities
- Functional & modern designs

FUNCTIONAL SPACES. BETTER OPERATIONS.

OUR BUILDING FEATURES

HIGH STRENGTH STRUCTURES

Built with quality materials for long-term durability.

WEATHER RESISTANT

Designed to withstand extreme weather conditions.

COST EFFECTIVE

Optimized design and execution for better value.

LOW MAINTENANCE

Quality construction that reduces maintenance cost.

ON-TIME DELIVERY

Efficient planning and execution for timely completion.

SAFE & RELIABLE

Built as per safety standards with strict quality control.

SCALABLE SOLUTIONS

Flexible designs that grow with your business.

CUSTOMIZED DESIGNS

Tailor-made solutions to meet your specific requirements.

OUR SCOPE OF WORK

- Site Survey & Planning
- Design & Engineering
- Civil & Foundation Work
- Structural Steel Erection
- Roofing & Cladding
- Flooring & Finishing
- Utilities & Services
- Electrical & Plumbing
- Painting & Protection
- Testing & Commissioning
- Project Handover

OUR CONSTRUCTION PROCESS

REQUIREMENT ANALYSIS

Understanding client needs and-site assessment.

DESIGN & PLANNING

Detailed design and engineering for efficient execution.

CIVIL & FOUNDATION WORK

Strong foundation for stable and long-lasting structures.

STRUCTURAL ERECTION

Steel fabrication and erection with precision and safety.

BUILDING & INSTALLATION

Roofing, cladding, utilities and internal installations.

TESTING & COMMISSIONING

Quality checks and commissioning for smooth operations.

PROJECT HANDOVER

Timely handover with complete documentation.

OUR PROJECTS

WE BUILD INFRASTRUCTURE THAT POWERS INDUSTRY AND DRIVES GROWTH.

PEB STRUCTURES &

STRUCTURAL STEEL

SOLUTIONS

ENGINEERED. FABRICATED. ERECTED TO PERFECTION.

We deliver complete Pre-Engineered Building (PEB) solutions and structural steel fabrication services for industrial, commercial and infrastructure projects with unmatched quality, precision and reliability.

PEB STRUCTURE SOLUTIONS

- Pre-Engineered Buildings
- Industrial Sheds
- Warehouses
- Manufacturing Facilities
- Storage Structures
- Hangars
- Mezzanine Flooring
- Roofing & Cladding Systems
- Fast Track Construction
- Cost Effective Solutions

HIGH STRENGTH

Engineered for maximum strength and durability.

COST EFFECTIVE

Optimized design and material usage reduces overall cost.

FASTER EXECUTION

Pre-fabricated components ensure quick installation.

DESIGN FLEXIBILITY

Custom designs to meet project specific requirements.

LOW MAINTENANCE

Galvanized/painted finishes for long term performance.

STRUCTURAL STEEL FABRICATION

- Steel Columns & Beams
- Pipe Racks & Supports
- Platforms & Walkways
- Staircases & Handrails
- Ladders & Cages
- Bracings & Trusses
- Machine Supports
- Steel Structures
- Custom Fabrication
- Hot-Dip Galvanizing

MATERIALS WE WORK WITH

STRUCTURAL STEEL

MILD STEEL

STAINLESS STEEL

GALVANIZED STEEL

OUR PEB & STEEL EXECUTION PROCESS

01

DESIGN & ENGINEERING

Custom design, 3D modeling and detailed engineering.

02

FABRICATION

Precision fabrication in advanced facility with quality control.

03

QUALITY CHECK

Rigorous inspection and testing to ensure highest standards.

04

TRANSPORTATION

Safe packing and on-time delivery to project site.

05

ERECTION

Professional erection team for safe and fast installation.

06

COMPLETION

Timely handover with complete satisfaction and support.

WHY CHOOSE RMH INFRA?

EXPERIENCED TEAM

Skilled professionals with vast industry experience.

QUALITY ASSURED

International standards and strict quality control.

ADVANCED EQUIPMENT

Modern machinery and technology for precision fabrication.

SAFETY FIRST

Strict safety protocols for zero harm environments.

ON-TIME DELIVERY

Efficient planning and execution for timely completion.

CLIENT SATISFACTION

Transparent communication and commitment to excellence.

OUR PEB & STRUCTURAL STEEL PROJECTS

DELIVERING END-TO-END

INFRASTRUCTURE

SOLUTIONS

PLANNED BETTER. BUILT STRONGER.

From concept to completion, we provide comprehensive infrastructure solutions with a strong focus on quality, innovation, safety and sustainability.

50+

PROJECTS COMPLETED

100+

HAPPY CLIENTS

10+

YEARS OF EXCELLENCE

OUR SIGNATURE PROJECTS

INDUSTRIAL BUILDING

Built for manufacturing excellence.

WAREHOUSE COMPLEX

Spacious. Strong. Secure storage solutions.

PEB STRUCTURE

High-performance PEB structures for all needs.

STEEL FABRICATION

Precision fabrication with unmatched quality.

INDUSTRIAL SHED

Reliable sheds for industrial operations.

COMMERCIAL BUILDING

Functional spaces with modern designs.

OUR ADVANTAGE

End-to-End Solutions

From planning to completion, we handle everything.

Quality Construction

Use of high-grade materials and advanced technology.

Skilled Workforce

Experienced engineers and workers ensure superior results.

Timely Delivery

On-time project completion with efficient project management.

Cost Effective

Value-engineered solutions that optimize your investment.

EQUIPMENT & MACHINERY

MOBILE CRANE

EXCAVATOR

JCB BACKHOE

BOOM LIFT

WELDING MACHINE

CUTTING MACHINE

MODERN MACHINERY. SUPERIOR PERFORMANCE.

SAFETY & QUALITY

Strict adherence to safety standards and protocols

Regular safety training and toolbox talks

Quality checks at every stage of construction

Compliance with national and international standards

Zero compromise on safety and quality

YOUR TRUSTED PARTNER IN

INDUSTRIAL INFRASTRUCTURE

We build more than just structures — we build long-term partnerships.

Factories & Industrial Units

Warehouses & Logistics Parks

Commercial & Office Spaces

Plant & Machinery Installation Support

Sustainable & Eco-Friendly Solutions

Customized Solutions for Every Project

BUILDING TODAY. TRANSFORMING TOMORROW.

At RMH Infra Projects Pvt. Ltd., we go beyond construction – we build long-term value, create sustainable infrastructure and strengthen communities.

WE SERVE DIVERSE INDUSTRIES

Manufacturing
& Industrial

Logistics &
& Warehousing

Infrastructure
& Utilities

Commercial
& Retail

Institutional
& Government

SUSTAINABLE FUTURE. RESPONSIBLE GROWTH.

We are committed to environmentally responsible construction and sustainable practices that minimize impact and maximize value.

*Green

for a Better
Tomorrow*

Energy-efficient building solutions

Use of eco-friendly materials

Waste management & recycling

Water conservation on sites

Reducing carbon footprint

Creating green & sustainable
infrastructure

OUR CORE VALUES

INTEGRITY

We operate with honesty, transparency and strong ethical standards.

QUALITY

We deliver superior quality in every project, every time.

SAFETY

Safety is our priority – for our people, our clients and communities.

INNOVATION

We embrace new technologies and innovative solutions to stay ahead.

TEAMWORK

We believe in collaboration, respect and shared success.

COMMITMENT

We are committed to timely delivery and long-term partnerships.
